"Enhancing Pathways"- Where language and literacy meet

Language and literacy are closely related but they are not the same.

"**Literacy** focuses primarily on language development in English (usually but not always the student's first language) and **ESL** focuses on language transfer from another mother tongue." (PRLN, 2008)

Do you agree with this definition?

People in our community might be falling into the grey area between literacy and language. Join us! Together we'll learn more about each other's services and see how we can make it easier for people to access the right program and to transition between programs.

"Enhancing Pathways" is a project of the London/Middlesex Local Immigration Partnership (Education Subcommittee). The Enhancing Pathways project is funded by Employment Ontario.
